# Awarded "ARCHITECT OF THE YEAR"-2012

The Mumbai becomes a growth center but solutions for designing problem is still at large except some architectural firms particularly Vivek Nandan (Principal Architect) and his firm "Vivek Nandan Architects".

Architects are Vishwakarmas. Architects are creators and having highest respect in real estate industry. As far as education concerned Vivek is an Alumnus of the Sir J.J. College of Architecture and has also done his Construction Management from the Jamnalal Bajaj Institute of Management, Mumbai.

As far as experience is concerned he had been working with a renowned architect for about five years as a Senior Project/s Architect before starting an independent Consulting Architectural Practice in the year 2002.

As an Architectural firm has the ability to develop ambitious and innovative architectural design solutions. With some of the leading consultants, are able to translate these concepts into reality. With a combined unrivalled pool of knowledge and building experience of over two hundred years, the practice has developed excellent contacts

"to create architecture that is conceptual, enduring and modernistic" - to explore originality – an innovative, intuitive response - resulting in an unique & topical yet practical design every time – an Architecture that is flamboyant & exuberant - an icon to look up to.

Each design solution is ingenious in pursuing its main interest – to address and adapt itself to the particular set of parameters that juxtapose its creation.
Methods of work?

Exposure to international standards of planning and design and the multi-faceted designing capabilities of the firm gives us the requisite skills, temperament and the professional outlook to undertake and execute projects.

"They join forces with other architectural practices working in collaboration to achieve the best possible result for our clients".

within the industry, and from the outset all consultants and contractors are treated as integral members of design studio. When a project requires it, we join forces with other architectural practices, working in collaboration to achieve the best possible result for our clients. This inclusive, collaborative approach is part of our design philosophy.

In the drive to improve building performance, firm harness the most innovative and

cutting edge technologies and materials available.

Firm is constantly looking to related disciplines and technologies which help us develop our design solutions to the optimum standard.

*Design Philosophy:*
The firm's main objective is

# VIVEK NANDAN
